DISTRICT COUNCIL of TUMBY BAY

NOTICE OF WORKS

Issued: 10/09/2026

Tumby Bay Foreshore Beach Access Works

The District Council of Tumby Bay advises that works associated with the Tumby Bay Timber Beach Access Ramp (FRRR Funded Project) are scheduled to commence from 14 September 2026, subject to weather and site conditions.

Works will be completed by a local contractor and include the construction of a new timber beach access ramp between the Tumby Bay Jetty and Foreshore Playground.

As part of the overall works program, the following additional foreshore infrastructure works will also be undertaken:

- Removal of the existing end-of-life timber ramp adjacent to the Tumby Bay Jetty and construction of replacement stairs, with the existing ramp landing and fish cleaning facilities to be retained.
- Removal of the existing end-of-life beach access ramp located at the Seabreeze Hotel end of the Tumby Bay Playground.

Temporary access restrictions may be required within the work area for public safety. Members of the public are asked to observe all contractor signage and directions during the construction period. Council appreciates the community's patience and cooperation while these works are completed.

The new timber beach access ramp project has been made possible through funding provided by the Foundation for Rural and Regional Renewal (FRRR) under the *Accessible Shores: Tumby Bay Beach Access Ramp* project.

The associated stair replacement works are being delivered as part of the boarder Tumby Bay and Port Neill beach access project funded through funding provided by the South Australian Government's Algal Bloom Response: Local Government Grant Fund.
